Ok, I think I got everything.

I, earlier, had made a distinction between "Material Removed" and "Open and empty but not cleaned" with the idea that we were going back and cleaning the tanks. I understand that we are not planning on doing that.

So, "Material Removed" means that we have taken all of the material out and that it is as clean as we are going to get it. Does that make sense?

Also, this is as of the end of the day today. We are working on OT-8 but it should be finished today. Let me know if you have any changes/corrections/suggestions.

Thanks,
Daniel

Daniel:

Any chance you can update our electronic map tomorrow sometime and send it to me?

Thanks

Gary Moore
